2006 Hyundai Sonata

Price: 2000 obo

For sale is a 2006 Hyundai Sonata with ~216,600 miles. It is a good daily driver, or at least has been since I bought it. The current registration is valid until March 2023. A smog check was performed in February 2022, so it should be good for another year and a half. A few notable issues with the vehicle: A/C does not work, rear struts are going bad, leaky valve cover (not noticable for short drives), and the idler/tensioner/serpentine belt most likely need replaced.

Wanted - Project/Restoration Car

Greetings,

I'm looking for a low cost project car/truck for restoring with my kids. Notional thoughts are 1964 thru 1970 Chevys, 1964 thru 1968 Mustangs, late model Corvettes or Mustangs, Jeep Wagoneer's, VW microbus.

Not running is okay, I'm mainly focused on a solid body/rolling chassis where most of the parts are there but needs some TLC...something to teach the kids about fundamental automotive technology.

Thanks!
