2015 Chevy Spark EV

Price: 3500

This has been a fun ride, but it's time to move on to something with more range. It will get about 70 miles/charge around town, but since the battery is getting old, I recommend keeping it above 20% on the battery. Will include OEM 120v charge cord. White with blue-trim interior. LT model, with DCFC capability. In overall good shape, with 49,770 miles. Located in Livermore, and can bring to the Lab if that's more convenient.
